# Ingenuity behind every picture.

Every picture taken with your Nikon COOLPIX compact digital camera is a premium Nikon experience culminating in over 60 years of photographic excellence. Nikon technology makes taking incredible pictures incredibly easy. Quick response, superior craftsmanship and remarkable compact dimensions are all hallmarks of a photographer's camera made by a true camera manufacturer. Nikon's legendary NIKKOR lens optics, coveted worldwide by photographers, and pioneering EXPEED digital image-processing innovations are built into every COOLPIX. And only COOLPIX brings so much inspiration and creativity together in one stylish package.

## NIKKOR

### 75 years of superior lens optics

With seventy-five years of precision lens manufacturing history in its own glassworks, NIKKOR lenses have met the exacting standards demanded by top professional photographers. Today with digital photography, that same commitment to quality craftsmanship, industry-leading technology, and reliability has never been more certain.

## The trinity of COOLPIX advantages

- QUICK RESPONSE
- ULTRA-COMPACT
- DESIGN ELEGANCE

## EXPEED

### Nikon's smarter approach to digital image-processing

From image capture to processing, Nikon's comprehensive EXPEED digital image-processing concept encompasses the entire picture-taking operation, not just the graphic reproduction. EXPEED is much more than a processing engine, it is a revolution in digital photography.

# COOLPIX PREMIUM FEATURES

VR image stabilization

## VR image stabilization

The Nikon COOLPIX lineup offers an array of VR technologies that produce blur-free images when shooting in low light or unsteady conditions. Selected models are equipped with one of two types of Optical VR: Lens Shift VR which physically adjusts optics in real time for faster, steady framing with the LCD, and Image Sensor Shift VR which moves the image sensor to compensate accurately for camera shake. In addition, some models offer Electronic VR, which applies movement data to image-processing to turn blurred images into beautifully clear results.

## VR in low light

Without VR

With VR

Better pictures in lower light

## Better pictures in lower light

Select COOLPIX models offer higher ISO capability beyond the range of conventional digital compacts. An exciting advantage that greatly increases photographic possibilities, high ISO capability delivers excellent exposures in challenging, oftentimes low light conditions, broadening the scope of possible subjects and allowing scenes to be captured beautifully without compromising natural light.

## Shooting in low light

Higher ISO capability makes for better shooting in low light and provides pleasing pictures without the need for flash or long exposure times, minimizing the effects of camera shake.

With normal sensitivity

With high sensitivity

## Shooting fast-moving subjects

High ISO capability enables the selection of faster shutter speeds, making it easier to capture fast-moving subjects with greater clarity.

Simply better portraits

## Face-priority AF

Available with all COOLPIX cameras, Face-priority AF helps ensure satisfyingly crisp portraits no matter where the subject is in the shot. By automatically detecting people's faces in the frame, Face-priority AF frees the photographer to simply press the shutter button to produce sharp portraits with focus exactly where it's wanted.

Note: face-recognition capability may be limited in some shooting conditions.

## D-Lighting

D-Lighting is a unique technology with the ability to rescue underexposed images or shots taken with excessive backlight. This innovative feature adds light and detail where necessary, while leaving correctly-exposed areas untouched. As a result, images are significantly improved in a much more natural-looking manner.

Without D-Lighting

With D-Lighting

## In-Camera Red-Eye Fix

All COOLPIX cameras offer advanced red-eye reduction capability. When set, Nikon's In-Camera Red-Eye Fix automatically analyzes the captured image for the presence of red-eye effect, and corrects it in-camera before saving the image to memory.

In-camera slideshow with music

## Pictmotion - In-camera slideshow with music

So much more than a slideshow, Pictmotion lets users share the fun of photography in a more creative, more entertaining way. Users simply select a range of their favorite images, pick a visual style and choose a soundtrack to suit the mood. The camera then automatically produces a Pictmotion movie that is ready for viewing on the camera's LCD or on a TV monitor, complete with timing and transitions determined by music and style.

## my Picturetown with wireless transfer

Nikon is changing the face of photography by being the first to bring the revolutionary new freedom of built-in Wi-Fi capability to compact digital cameras. Select COOLPIX models employ Nikon technology that makes it easy to connect to a wireless network at home, or from any Wi-Fi hotspot\*. This function lets you access Nikon's *my Picturetown* service, an image storage and sharing site that integrates storage, viewing and transfer functions.

\* Usage varies according to country or region.

Freedom with wireless image transfer

## A COOLPIX to ignite every passion

Share your passion in style with the finely crafted COOLPIX model best matched to whatever combination of stylish elegance, advanced performance, or easy-going excellence you desire.

## Performance

The creative path to imaging brilliance

### COOLPIX P6000

- 13.5 megapixel resolution
- 4x zoom with 28mm wide-angle capability
- 2.7-inch high-resolution LCD
- External flash and converter lens options
- RAW file format support\*<sup>1</sup>
- Optical lens shift VR image stabilization
- Wired LAN connectivity, *my Picturetown*
- Built-in GPS unit
- ISO 6400\*<sup>2</sup> capability

\*<sup>1</sup> Windows only  
\*<sup>2</sup> ISO 3200 and 6400 are available only for image sizes of 3M (2048 x 1536) or smaller.

### COOLPIX P80

- 10.1 megapixel resolution
- World's smallest\*<sup>1</sup> 18x zoom camera
- Electronic viewfinder
- 2.7-inch high-resolution LCD
- Image sensor shift VR image stabilization
- ISO 6400\*<sup>2</sup> capability
- Exposure modes (P/S/A/M)

\*<sup>1</sup> Among compact cameras equipped with 18x zoom as of March 4, 2008 (according to research conducted by Nikon Corporation).  
\*<sup>2</sup> ISO 3200 and 6400 are available only for image sizes of 3M (2048 x 1536) or smaller.

### COOLPIX P60

- 8.1 megapixel resolution
- 5x zoom
- Electronic viewfinder
- 2.5-inch LCD
- Image sensor shift VR image stabilization
- ISO 2000 capability
- AA-size battery compatible
- Exposure modes (P/M)

## Style

The elegant path to imaging brilliance

### COOLPIX S710

- World's most compact design\*<sup>1</sup>
- 14.5 megapixel resolution
- 3.6x zoom with 28mm wide-angle capability
- Optical lens shift VR image stabilization
- 3.0-inch high-resolution LCD
- Exposure modes (P/S/A/M)
- ISO 12,800\*<sup>2</sup> capability
- Scene Auto Selector

\*<sup>1</sup> Among 14 megapixel compact cameras equipped with optical vibration reduction as of July 2, 2008 (according to research conducted by Nikon Corporation).  
\*<sup>2</sup> ISO 6400 and 12,800 are available only for image sizes of 3M (2048 x 1536) or smaller.

### COOLPIX S610c

- World's fastest start-up time\*<sup>1</sup>
- 10.0 megapixel resolution
- 4x zoom with 28mm wide-angle capability
- Optical lens shift VR image stabilization
- 3.0-inch high-resolution LCD
- Wi-Fi capability, *my Picturetown*
- ISO 3200 capability
- Scene Auto Selector
- Active Child Mode

\*<sup>1</sup> Among compact cameras equipped with 28mm (35mm format equivalent) zoom lens and optical vibration reduction as of July 2, 2008 (according to research conducted by Nikon Corporation).

### COOLPIX S610

- World's fastest start-up time\*<sup>1</sup>
- 10.0 megapixel resolution
- 4x zoom with 28mm wide-angle capability
- Optical lens shift VR image stabilization
- 3.0-inch high-resolution LCD
- ISO 3200 capability
- Scene Auto Selector
- Active Child Mode

\*<sup>1</sup> Among compact cameras equipped with 28mm (35mm format equivalent) zoom lens and optical vibration reduction as of July 2, 2008 (according to research conducted by Nikon Corporation).

### COOLPIX S600

- World's fastest start-up time\*<sup>1</sup>
- World's most compact design\*<sup>2</sup>
- 10.0 megapixel resolution
- 4x zoom with 28mm wide-angle capability
- 2.7-inch high-resolution LCD
- Optical lens shift VR image stabilization
- ISO 3200 capability

\*<sup>1</sup> Among compact cameras equipped with 28mm (35mm format equivalent) zoom lens and optical vibration reduction as of July 2, 2008 (according to research conducted by Nikon Corporation).

### COOLPIX S560

- World's most compact design\*<sup>1</sup>
- 10.0 megapixel resolution
- 5x zoom
- Image sensor shift VR image stabilization
- 2.7-inch high-resolution LCD
- ISO 3200\*<sup>2</sup> capability
- Scene Auto Selector
- Smile Mode
- Blink Warning

\*<sup>1</sup> Among 10 megapixel compact cameras equipped with optical vibration reduction and retractable 5x zoom as of July 2, 2008 (according to research conducted by Nikon Corporation).  
\*<sup>2</sup> ISO 3200 is available only for image sizes of 3M (2048 x 1536) or smaller.

### COOLPIX S550

- World's smallest 5x zoom camera\*<sup>1</sup>
- 10.0 megapixel resolution
- 2.5-inch high-resolution LCD
- Electronic VR image stabilization
- ISO 2000 capability
- Smile Mode
- Blink Warning

\*<sup>1</sup> Among 10 megapixel compact cameras equipped with retractable 5x zoom as of January 1, 2008 (according to research conducted by Nikon Corporation).

### COOLPIX S520

- 8.0 megapixel resolution
- 3x zoom
- 2.5-inch LCD
- Optical lens shift VR image stabilization
- ISO 2000 capability
- Food Mode

### COOLPIX S210

- 8.0 megapixel resolution
- 3x zoom
- 2.5-inch high-resolution LCD
- Electronic VR image stabilization
- ISO 2000 capability

### COOLPIX S60

- 10.0 megapixel resolution
- 5x zoom
- 3.5-inch wide touch screen high-resolution LCD
- Image sensor shift VR image stabilization
- ISO 3200\*<sup>1</sup> capability
- HDMI connectivity
- Scene Auto Selector
- HD Pictmotion

\*<sup>1</sup> ISO 3200 is available only for image sizes of 5M (2592 x 1944) or smaller.

## Life

The easy path to imaging brilliance

### COOLPIX L18

- 8.0 megapixel resolution
- 3x zoom
- 3.0-inch high-resolution LCD
- Anti-shake AE
- AA-size battery compatible
- Easy Auto Mode
- ISO 1600 capability

### COOLPIX L16

- 7.1 megapixel resolution
- 3x zoom
- 2.8-inch high-resolution LCD
- Anti-shake AE
- AA-size battery compatible
- Easy Auto Mode
- ISO 1600 capability

Note: Camera models and color availability may vary according to region.

COOLPIX S710  
14.5 megapixels, ISO 100, Manual

COOLPIX S610  
10.0 megapixels, ISO Auto, Landscape scene mode

COOLPIX S710

Advanced performance matched only by stylish elegance.

### Pure imaging power with plenty of range

14.5 megapixels of sharp resolution let you capture the finest details. The COOLPIX S710's advanced image-processing engine optimizes performance and color reproduction. And the quality optics of its 3.6x wide-angle 28-101mm Zoom-NIKKOR lens (35mm format equivalent) allow for greater compositional freedom.

### VR image stabilization

Nikon's optical lens shift VR image stabilization compensates for camera shake to produce clearer, sharper results in lower light or unsteady conditions.

### ISO 12,800 capability

Light sensitivity range up to ISO 12,800\* creates new opportunities to take sharper, more natural-looking photos in lower light conditions, or to capture fast-moving subjects with outstanding clarity.

\* ISO 6400 and 12,800 are available only for image sizes of 3M (2048 x 1536) or smaller.

### Advanced shooting modes

Quick access to a choice of Programmed Auto [P], Shutter-priority Auto [S], Aperture-priority Auto [A], and Manual [M] exposure modes offers greater creative freedom.

### High response

All functions are optimized for immediate response, freeing you to capture special moments as you experience them.

### Other features

- World's most compact design\* featuring a stainless steel surface and comfortable thumb rest
- 3.0-inch high-resolution wide-viewing angle LCD monitor with anti-reflection coating
- Nikon's new Scene Auto Selector
- High-speed Continuous Mode offers high-speed capture settings to help keep you ahead of most any action scene you wish to shoot
- Food Mode enables white balance adjustment on the LCD monitor for desired color tones
- Smile Mode to help ensure smiles on the faces of loved ones
- Face-priority AF
- In-Camera Red-Eye Fix
- D-Lighting

\* Among 14 megapixel compact cameras equipped with optical vibration reduction as of July 2, 2008 (according to research conducted by Nikon Corporation).

Highly advanced. Beautifully liberating.

Fully automatic. Absolutely brilliant.

### The freedom of Wi-Fi capability

The world's first implementation of the WPS\* (Wi-Fi Protected Setup) standard makes it easy to connect to a wireless network by simply entering your PIN and selecting your connection method. Access Nikon's *my Picturetown* Internet services directly to store photos automatically and securely using Picture Bank, or upload directly to blogs and web sites for easy posting. Send a link to selected photos directly to a friend's email address, allowing them to view your pictures without having to download them as attachments.

\* Among digital cameras as of July 2, 2008 (according to research conducted by Nikon Corporation).

### The world's fastest start-up time in its class

Featuring the world's fastest start-up time\* of a mere 0.7 seconds, the optimized performance of the COOLPIX S610c frees you to capture special moments as you experience them.

\* Among compact cameras equipped with 28mm (35mm format equivalent) zoom lens and optical vibration reduction as of July 2, 2008 (according to research conducted by Nikon Corporation).

### VR image stabilization

Nikon's optical lens shift VR image stabilization compensates for camera shake to produce clearer, sharper results in lower light or unsteady conditions. In addition, Motion Detection lets you take great pictures free of complicated operation by automatically increasing shutter speed and raising the ISO setting to compensate for camera shake and subject movement.

### Automated and optimized shooting modes

Nikon's new Scene Auto Selector provides carefree shooting in a variety of situations by recognizing the setting and automatically selecting the appropriate scene mode. Active Child Mode enhances the shooting experience by automatically following the movement of your subject to ensure clear focus.

### Other features

- Ultra-compact form finished in fine style with comfortable thumb rest
- 10.0 effective megapixel clarity
- 4x Zoom-NIKKOR with 28mm wide-angle capability
- 3.0-inch high-resolution wide-viewing angle LCD monitor
- ISO 3200 capability
- Food Mode enables white balance adjustment on the LCD monitor for desired color tones
- Smile Mode to help ensure smiles on the faces of loved ones
- Face-priority AF
- In-Camera Red-Eye Fix
- D-Lighting

Easy lovin'

Beauty you will love to flaunt. Beautiful photos you will love to take.

### Unbeatable speed and knockout good looks

Featuring the world's fastest start-up time\* of a mere 0.7 seconds, the optimized performance of the COOLPIX S610 frees you to capture special moments as you experience them.

\* Among compact cameras equipped with 28mm (35mm format equivalent) zoom lens and optical vibration reduction as of July 2, 2008 (according to research conducted by Nikon Corporation).

### Ultra-compact design featuring a 3.0-inch LCD

The COOLPIX S610 packs high performance, a 3.0-inch high-resolution LCD monitor, and a 4x Zoom-NIKKOR lens with 28mm wide-angle capability into an ultra-compact design.

### Fully automated shooting ease with advanced shooting modes

Nikon's new Scene Auto Selector provides carefree shooting in a variety of situations by recognizing the setting and automatically selecting the appropriate scene mode. Active Child Mode enhances the shooting experience by automatically following the movement of your subject to ensure clear focus.

### VR image stabilization

Nikon's optical lens shift VR image stabilization compensates for camera shake to produce clearer, sharper results in lower light or unsteady conditions. In addition, Motion Detection lets you take great pictures free of complicated operation by automatically increasing shutter speed and raising the ISO setting to compensate for camera shake and subject movement.

### ISO 3200 capability

Light sensitivity range up to ISO 3200 creates new opportunities to take sharper, more natural-looking photos in lower light conditions, or to capture fast-moving subjects with outstanding clarity.

### Other features

- 10.0 effective megapixel clarity
- Food Mode enables white balance adjustment on the LCD monitor for desired color tones
- Smile Mode to help ensure smiles on the faces of loved ones
- Face-priority AF
- In-Camera Red-Eye Fix
- D-Lighting

The smallest\*. The fastest start-up\*. Outright alluring.

## The world's most compact design

From the solid feel and comfortable grip of the world's most compact\* stainless steel design to its large, easy-access control buttons and 2.7-inch high-resolution LCD monitor, the COOLPIX S600 is a joy to take pictures with and to carry.

## The world's fastest start-up time in its class

Optimized for the world's fastest start-up time\*, the COOLPIX S600 frees you to capture special moments as you experience them. The COOLPIX S600 has a start-up time of within 0.7 seconds and incorporates fast AF.

\* Among compact cameras equipped with 28mm (35mm format equivalent) zoom lens and optical vibration reduction as of July 2, 2008 (according to research conducted by Nikon Corporation).

## VR image stabilization

Nikon's optical lens shift VR image stabilization compensates for camera shake to produce clearer, sharper results in lower light or unsteady conditions.

## ISO 3200 capability

Light sensitivity range up to ISO 3200 with manual control or auto control (up to ISO 800) creates new opportunities to take sharper, more natural-looking photos in lower light conditions, or to capture fast-moving subjects with outstanding clarity.

## Other features

- 10.0 effective megapixel clarity
- 4x Zoom-NIKKOR with 28mm wide-angle capability
- Active Child Mode — automatically tracks and focuses on the subject
- Pastel Mode — creates a soft, impressionistic image when enabled before shooting
- Face-priority AF
- In-Camera Red-Eye Fix
- D-Lighting

Contoured style for a great fit.

Advanced automatic function for greater freedom.

## The world's most compact design\* in its class with 5x Zoom-NIKKOR lens

The COOLPIX S560 packs stylish elegance, swift response and advanced functions into the world's most compact design among competing compact digital cameras. In addition, the quality optics of the COOLPIX S560's 5x Zoom-NIKKOR lens provide exceptional image quality, and deliver greater creative freedom than normal through telephoto focal range, as well as macro shooting ability from as close as 10 cm (4 in.) to your subject.

\* Among 10 megapixel compact cameras equipped with optical vibration reduction and retractable 5x zoom as of July 2, 2008 (according to research conducted by Nikon Corporation).

## VR image stabilization

Nikon's image sensor shift VR image stabilization compensates for the effects of camera shake to realize sharper results. This frees you to enjoy capturing special moments without worrying about slight hand movements, particularly in lower lighting conditions or when zooming in for close-ups.

## Scene Auto Selector

Nikon's new Scene Auto Selector provides carefree shooting in a variety of situations by recognizing the type of setting and automatically selecting the appropriate scene mode for optimum results.

## Smile Mode and Blink Warning

Smile Mode automatically releases the shutter when the selected subject smiles, helping you to faithfully record precious smiles in the brief instants they appear. The Smile Indicator displays a gauge that lets you identify the best smiles on loved ones. And Blink Warning alerts you when it suspects that a subject has blinked, allowing you to immediately retake the shot and get the desired results.

## Other features

- 10.0 effective megapixel clarity
- 2.7-inch high-resolution wide-viewing angle LCD monitor with anti-reflection coating
- Food Mode enables white balance adjustment on the LCD monitor for desired color tones
- High sensitivity up to ISO 3200\*
- Face-priority AF
- In-Camera Red-Eye Fix
- D-Lighting

\* ISO 3200 is available only for image sizes of 3M (2048 x 1536) or smaller.

S m a r t , f a s t a n d e l e g a n t l y c o m p a c t .

## The world's most compact design

The COOLPIX S550 packs stylish elegance, high performance and advanced functions into the world's most compact design among competing compact digital cameras\*, and features a thumb rest for a comfortable fit in the hand.

\* Among 10 megapixel compact cameras equipped with retractable 5x zoom as of January 1, 2008 (according to research conducted by Nikon Corporation).

## VR image stabilization

Compensating for the effects of camera shake to realize sharper results, electronic VR image stabilization frees you to enjoy capturing special moments without worrying about slight hand movements, particularly in lower light conditions.

## 5x Zoom-NIKKOR lens

Exceptional image quality with greater creative freedom distinguishes the 5x Zoom-NIKKOR lens (35mm format equivalent) for the COOLPIX S550. Delivering telescopic reach of up to 180mm, its quality NIKKOR optics also allow macro shooting from as close as 10 cm (4 in.) to your subject.

36mm (35mm format equivalent)

180mm (35mm format equivalent)

## Smile Mode and Blink Warning

Smile Mode automatically releases the shutter when the selected subject smiles, helping you to faithfully record precious smiles in the brief instants they appear. The Smile Indicator displays a gauge that lets you identify the best smiles on loved ones. And Blink Warning alerts you when it suspects that a subject has blinked, allowing you to immediately retake the shot and get the desired results.

## Other features

- 10.0 effective megapixel clarity
- 2.5-inch high-resolution wide-viewing angle LCD monitor with anti-reflection coating
- High sensitivity up to ISO 2000
- Face-priority AF
- In-Camera Red-Eye Fix
- D-Lighting

The functional beauty of unique versatility and optical VR.

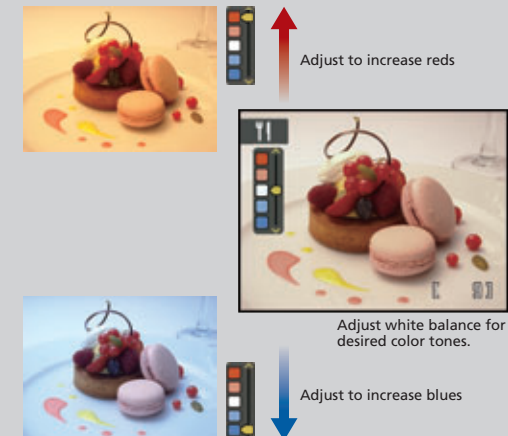

## 8.0 effective megapixel clarity

An impressively high megapixel count enables the COOLPIX S520 to capture images with true-to-life color and outstanding detail. Such capability also means images can be considerably enlarged, yet still look absolutely stunning.

## Food Mode

This new scene mode helps capture shots of food more beautifully in restaurants, or in dimly-lit locations where flash cannot be used. It allows you to get up close to your subject, and also makes it easy to adjust white balance if the need arises.

## Other features

- 2.5-inch LCD monitor with anti-reflection coating
- ISO 2000 capability
- Favorite Pictures feature — organizes and saves images to albums in-camera
- Face-priority AF
- In-Camera Red-Eye Fix
- D-Lighting

## Favorite Scenes

It's as simple as selecting your three favorite scene modes and registering them to appear in the main Mode Menu for easier access. And, you can easily change your selection whenever your mood or preferences change.

Light Bronze

Urban Black

# COOLPIX S210

Functional beauty in an alluringly slim design.

## Elegant aluminum finish design, 18mm slim

Packing sophisticated style, advanced functions and high performance into its ultra-slim design, the COOLPIX S210 fits comfortably in the hand and offers simplified operation.

## VR image stabilization

Compensating for the effects of camera shake to realize sharper results, electronic VR image stabilization frees you to enjoy capturing special moments without worrying about slight hand movements.

## ISO 2000 capability

Light sensitivity range up to ISO 2000 allows the use of faster shutter speeds to avoid blurred results when shooting moving subjects or in locations with insufficient lighting. ISO sensitivity is automatically optimized in High-sensitivity Shooting Mode.

## Other features

- 8.0 effective megapixel clarity
- 2.5-inch high-resolution wide-viewing angle LCD monitor with anti-reflection coating
- Face-priority AF
- In-Camera Red-Eye Fix
- D-Lighting

COOLPIX S560  
10.0 megapixels, ISO 64, Programmed Auto

## The fun of fingertip shooting control

### Select your subject by touch

Touch your subject to lock autofocus and exposure.

### Portrait One-touch Zoom

After selecting your subject, touch the Portrait One-touch Zoom button for automatic zoom.

### 5x Zoom-NIKKOR lens

Zoom right in on your subject during shooting with the zoom buttons on the touch screen.

## A whole new world of playback pleasure

Touch controls bring a whole new dimension of fun to viewing images on the amazing 3.5-inch LCD, from selecting thumbnail images with your fingers or scrolling through full-size images, to zooming in on images and personalizing your photos with the Paint Function. The COOLPIX S60 also has the ability to rotate images automatically.

### Scroll through your images

### Zoom-in at playback for a closer look

### Automatic image rotation

### Paint Function

Personalize your photos with the stylus to write handwritten memos and even add colorful borders and stamps.

## Thumbnail selection for easy viewing

## HD Pictmotion slideshow with HDTV

Enjoy high-quality playback and slide shows on an HDTV with HDMI connectivity. HD Pictmotion lets users select favorite images, then combine them with music and visual styles to create an entertaining audiovisual show for enjoyment anywhere.

## Other features

- 10.0 effective megapixel clarity
- Image sensor shift VR image stabilization
- Nikon's new Scene Auto Selector
- Smile Timer — automatically releases the shutter when the subject smiles
- Draw Function
- High sensitivity up to ISO 3200\*
- Face-priority AF
- In-Camera Red-Eye Fix
- D-Lighting

\* ISO 3200 is available only for image sizes of 5M (2592 x 1944) or smaller.

COOLPIX P6000  
13.5 megapixels, ISO 64, Manual

# COOLPIX P6000

The full power of total photographic freedom.

## Pure imaging power and plenty of range

The COOLPIX P6000 delivers 13.5 megapixels of sharp resolution to capture the finest details, crop creatively and produce beautiful enlargements. Its advanced image-processing engine optimizes performance and color reproduction. And the quality optics of its 4x wide-angle 28-112mm Zoom-NIKKOR ED lens (35mm format equivalent) maximize compositional freedom.

## Fully customizable operation

The COOLPIX P6000 features the Command dial and customizable Fn (Function) button that allow quick switching of settings, a custom shooting menu for smooth access to regularly used selections, as well as the efficiency of its tabbed menu interface. And the Mode Dial provides quick control over the advanced Programmed Auto [P], Shutter-priority Auto [S], Aperture-priority Auto [A], and Manual [M] exposure modes.

## GPS and LAN support

A built-in GPS (Global Positioning System) unit lets you record the location (latitude and longitude) of your shots as "geotags." But that's just where the fun begins. Connect a cable to the built-in LAN connector to access the Internet and enjoy viewing the location on maps available in ViewNX or my Picturetown.

## COOLPIX Picture Control for improved finishing flexibility

Nikon's original Picture Control System features intuitive operation that makes it easy to apply adjustments to RAW image files\* you've shot and finish them to match your tastes. This advanced technology is optimized for use in COOLPIX cameras.

\* Applicable only when RAW files are processed in-camera.

## System expandability

You can broaden focal range to 21mm (35mm format equivalent) by adding the optional wide-angle converter lens. The built-in accessory shoe supports advanced i-TTL flash control for external Speedlights.

## Other features

- Optical viewfinder
- High-quality materials and finish with magnesium alloy front panel
- 2.7-inch high-resolution wide-viewing angle LCD monitor with anti-reflection coating
- Optical lens shift VR image stabilization
- Manual focus
- ISO 6400\* capability
- Wireless Remote Control ML-L3 for wireless shutter release
- Distortion Control
- Face-priority AF
- In-Camera Red-Eye Fix
- D-Lighting

\* ISO 3200 and 6400 are available only for image sizes of 3M (2048 x 1536) or smaller.

Black

Black

Beautifully focused on pure camera performance.

## The world's most compact super-telephoto camera

The COOLPIX P80 offers the unbeatable compositional freedom of an 18x Zoom-NIKKOR lens covering everything from 27mm wide-angle to 486mm super-telephoto shooting. And it squeezes all this photographic power into the world's most compact design in the class\* for even greater freedom.

\*Among compact cameras equipped with 18x zoom as of March 4, 2008 (according to research conducted by Nikon Corporation).

27mm (35mm format equivalent)

486mm (35mm format equivalent)

## Advanced shooting modes (P, S, A, and M)

The Mode Dial provides quick access to greater personal control over camera operation and the rich creative possibilities offered by Programmed Auto [P], Shutter-priority Auto [S], Aperture-priority Auto [A], and Manual [M] exposure modes.

## ISO 6400 capability

Light sensitivity range up to ISO 6400\* with manual control, along with auto control (ISO 64-800), and High ISO (ISO 64-1600) settings, creates new opportunities to take sharper, more natural-looking photos in lower light conditions, or to capture fast-moving subjects with outstanding clarity. Fixed range auto is also available, allowing you to limit sensitivity from ISO 64 to 100, 200, or 400.

\*ISO 3200 and 6400 are available only for image sizes of 3M (2048 x 1536) or smaller.

## Sport Continuous Mode

High-speed continuous shooting settings help keep you ahead of most any action scene you wish to shoot. The COOLPIX P80 can shoot as many as 30 consecutive pictures\* at 13 fps in Sport Continuous Mode. In addition, you can choose to shoot at 6 fps or at 4 fps.

\*Feature available only for image sizes of 3M (2048 x 1536) or smaller.

## Other features

- 10.1 effective megapixel clarity
- 2.7-inch high-resolution wide-viewing angle LCD monitor with anti-reflection coating
- Image sensor shift VR image stabilization
- Electronic viewfinder for sharp, steady shooting
- Optimize image (including monochrome filter effect)
- Distortion Control
- Face-priority AF
- In-Camera Red-Eye Fix
- D-Lighting

Black

Traditional camera styling, reliable performance.

## 8.1 megapixel clarity with 5x zoom

An impressively high megapixel count delivers pictures with true-to-life color and pleasing detail. What's more, it means images can be significantly enlarged and still look absolutely stunning. The quality optics of a 36-180mm 5x Zoom-NIKKOR lens (35mm format equivalent) maximize compositional freedom and image quality.

## ISO 2000 capability

Light sensitivity range up to ISO 2000 with manual control or auto control (up to ISO 800) creates new opportunities to take sharper, more natural-looking photos in lower light conditions, or to capture fast-moving subjects with outstanding clarity.

## AA-size batteries for shoot-anywhere convenience

Compatibility with AA-size batteries, which are widely available around the world, means carefree shooting virtually anywhere without worrying about recharging or running out of power.

## Practical shooting modes

Programmed Auto [P] and Manual [M] exposure modes that give greater personal control over camera operation are accessible via the Mode Dial, as are a selection of 15 scene-optimized modes and four different movie modes.

## Other features

- Electronic viewfinder for sharp, steady shooting
- 2.5-inch LCD monitor
- Image sensor shift VR image stabilization
- Face-priority AF
- In-Camera Red-Eye Fix
- D-Lighting

For carefree shooting and consistently great pictures.

## 8.0 effective megapixel clarity

An impressively high megapixel count delivers pictures with true-to-life color and pleasing detail. What's more, it means images can be significantly enlarged and still look absolutely stunning.

## Anti-shake AE

Anti-shake AE helps you take great pictures free of complicated operation by automatically increasing shutter speed and raising the ISO setting to compensate for camera shake and subject movement.

## Expansive 3.0-inch LCD monitor

A huge, bright LCD monitor makes it a cinch to compose shots and play them back anywhere, ensuring clear viewing, even in direct sunlight.

## AA-size batteries for carefree shooting anywhere

Compatibility with AA-size batteries, widely available around the world, means carefree shooting virtually anywhere without worrying about recharging or running out of power.

## Easy Auto Mode

Easy Auto Mode makes photography even easier by taking control of settings, so you simply turn on the camera and shoot freely.

## Other features

- High sensitivity up to ISO 1600
- Face-priority AF
- In-Camera Red-Eye Fix
- D-Lighting

Great pictures, great value, great fun.

## 3x Zoom-NIKKOR lens

The 3x Zoom-NIKKOR lens with a focal range of 35-105mm (35mm format equivalent) for the COOLPIX L16 makes it easy to preserve special moments with friends and family, anytime. Precision NIKKOR optics provide consistently sharp results, whether zooming in for tight close-ups or out to take in the entire scene.

## 7.1 effective megapixel clarity

An impressively high megapixel count enables the COOLPIX L16 to capture images with true-to-life color and outstanding detail.

## Anti-shake AE

Anti-shake AE helps you take great pictures without complicated operation by automatically increasing shutter speed and raising the ISO setting to compensate for camera shake and subject movement.

## Easy Auto Mode

Easy Auto Mode makes photography even easier by taking control of camera settings, so you simply turn on the camera and shoot freely.

## ISO capability assists shooting in low light

Accurately measuring available light, the COOLPIX L16 automatically selects the best sensitivity setting. And with an impressive sensitivity range of up to ISO 1600, it's easy to take great-looking pictures in low light conditions.

## AA-size battery compatible for power replenishment anywhere

Compatibility with widely-available AA-size batteries means users can go on shooting virtually anywhere without worrying about recharging or running out of power.

## Other features

- 2.8-inch high-resolution LCD monitor
- Face-priority AF
- In-Camera Red-Eye Fix
- D-Lighting

Explanation of functions

Camera System

Resolution and Optics

Effective megapixels

The number of pixels that actually make up the image captured by a digital camera. Images recorded with more effective megapixels will therefore contain a larger amount of image information, resulting in higher-level sharpness.

NIKKOR Lenses

Highly respected by leading professional photographers, NIKKOR lenses are renowned for their outstanding autofocus performance, true-to-life color, high contrast, and exceptional sharpness.

Optical Zoom

COOLPIX cameras offer ample zooming capability. They make it easy to zoom in for tight portraits, for example, or zoom right out to capture expansive landscapes.

27mm (35mm format equivalent) 486mm (35mm format equivalent) Digital Zoom 1944mm (35mm format equivalent)

Vibration Reduction (VR)

Refer to page 4.

Interface

Anti-reflection coating (LCD)

Anti-reflection coating on the LCD monitor improves visibility and makes menus easier to work with, even outdoors in the sun.

Mode Dial

The custom-designed Mode Dial provides quick and easy access to greater personal control over camera operation.

Rotary Multi Selector

The Rotary Multi Selector simplifies operation, speeds the selection of functions, and allows image scrolling at up to 10 shots per second.

Wide-viewing angle (LCD)

LCD monitors with wider viewing angles enhance shooting versatility, while also making it easy for all to gather round and view images or slideshows.

Shooting features

Control Options

Aperture-priority Auto mode

Enabling greater control over depth of field, Aperture-priority Auto mode lets you manually select aperture size, while the camera chooses the optimal shutter speed.

Automatic ISO sensitivity

Automatically adjusts light sensitivity to ensure optimal exposure for sharp results and carefree shooting, even in lower light.

Continuous Shooting

Swift Continuous Shooting capability lets you take a series of pictures in quick succession, making it easy to capture action as it happens.

Easy Auto Mode

Easy Auto Mode makes photography even easier by taking control of settings, so you simply turn on the camera and shoot.

Fixed ISO sensitivity

Manually set light sensitivity for personal control over shooting effectively in lower light conditions, or to capture fast-moving subjects with outstanding clarity.

High ISO

Refer to page 4.

Better pictures in lower light

High-Sensitivity Mode

High-Sensitivity Mode chooses the optimal ISO setting for clearer results in lower light.

Macro Mode

Macro Mode lets you fill the frame with small objects, adjusting the lens for much closer focus and stopping down the aperture for maximum depth of field.

Motion Detection/Anti-shake AE

Motion Detection (equivalent function as Anti-shake AE) helps compensate for camera shake and subject movement, so you can focus on taking great pictures instead of on shutter speed or ISO settings.

RAW format support

The new RAW file format for Nikon COOLPIX cameras is compatible with Microsoft's Windows Image Component (WIC) codec, allowing images shot in RAW format to be opened and edited in ViewNX (Windows version only), or in other applications that support WIC.

Shutter-priority Auto mode

Shutter-priority Auto mode lets you manually select shutter speed, while the camera chooses the optimal aperture.

Sport Continuous Mode

High-speed capture settings help keep you ahead of most any action scene you wish to shoot.

White Balance

White Balance automatically ensures accurate, optimal color temperature across a range of lighting conditions, keeping colors true to the way you see them.

1:1 size format

1:1 size format allows photos to be shot using 1:1 (square) ratio.

Shooting Assist Features

Active Zoom

Unlike digital zooms which enlarge image data, Active Zoom crops the image from the maximum image size, thus minimizing image deterioration and delivering high-resolution data.

Best Shot Selector (BSS)

Best Shot Selector automatically selects the shot with the sharpest focus from a series of consecutive images.

Blink Warning

Blink Warning notifies you when a subject blinks during exposure, and allows you to immediately retake the shot.

Face-priority AF

Refer to page 5.

Simply better portraits

Favorite Scenes

Register your three favorite scene modes to appear in the main Mode Menu for easier access.

Scene Auto Selector

Provides carefree shooting in a variety of situations by recognizing the type of setting and automatically selecting the appropriate scene mode for optimum results.

Scene modes

Scene modes make it easy to achieve pleasing results in a wide range of common situations. Refer to page 28.

Smile Mode

Smile Mode automatically releases the shutter when the selected subject smiles, helping to ensure smiles on the faces of loved ones.

Movie / Audio

Time-lapse Movie

Time-lapse Movie mode creates movies out of images taken using the Time-lapse feature, which enables users to specify the interval between shots.

TV/Small Size Movie

TV movie mode records VGA-size images (640 x 480 pixels) that fit perfectly on a TV screen. Small Size movie produces QVGA-size movies (320 x 240 pixels).

Voice Recording

The handy Voice Recording function can be used to record literally hours of sound when used with sufficient memory media.

Image Organization

Date Imprint

The Date Imprint function automatically adds date information to images taken, making it easy to organize pictures.

Favorite Pictures

Lets you organize images and save them to albums that you create within the camera.

Small Picture

The Small Picture function automatically reduces the size of data for selected images, making them better suited for emailing.

Connectivity / Storage

HDMI support

HDMI (High Definition Multimedia Interface) connectivity allows you to enjoy high-quality HDTV slide shows.

Wireless LAN Connection

Refer to page 5.

Freedom with wireless image transfer

Internal memory

Internal memory gives you the freedom to shoot images at any time, even when you're not carrying any memory media. It also makes it easy to transfer images between memory media as you please.

Playback / Output

Face Zoom-in

Zoom right in on the subject's face during playback, and use the Multi-selector button to move freely to the faces of other subjects in the same photo.

Pictmotion

Refer to page 5.

Discover the simplicity of Scene modes

Portrait

All models

Throws the background out of focus to emphasize the subject. Portrait subjects benefit from smooth, natural-looking skin tones.

Landscape

All models

Provides greater depth of field. Camera focuses at infinity.

Sports

All models\*

Increases shutter speed, so users can freeze the action in a single shot and record motion as a series of pictures.

\*The COOLPIX P80 is equipped with Sport Continuous Mode.

Night Portrait

All models

Achieves a natural balance between the main subject and background lighting in portraits taken at night.

Party/Indoor

All models

Captures bright, natural-looking portraits indoors while maintaining background details.

Beach/Snow

All models

Keeps backgrounds and human subjects vivid despite the uncommonly bright conditions.

Sunset

All models

Makes the most of beautiful hues seen in sunsets and sunrises.

Dusk/Dawn

All models

Preserves the colors seen in the weak natural light before sunrise or after sunset.

Night Landscape

All models

Slow shutter speeds are used to produce stunning night landscapes.

Close-Up

All models

Lets users compose and photograph small objects at close range.

Museum

All models

Many museums don't allow the use of flash, so Museum mode reduces the effects of camera movement to enable sharper shots without flash.

Fireworks Show

S710 S610c S610 S560 S550 S520 S210 P6000 P80 P60

Slow shutter speeds capture the light trails of dramatic bursting fireworks with satisfying color and clarity.

Copy

All models

Blends sharpness with higher than normal contrast to capture text or drawings with greater clarity in black and white.

Backlight

All models

Because bright backgrounds can cause nearby subjects to underexpose, Backlight mode adds flash automatically to the foreground to "fill in" the shadows.

Food

S710 S610c S610 S560 S520 S60

Helps capture close-ups of food more beautifully in restaurants or at other tables without using flash.

Panorama Assist

S710 S610c S610 S560 S550 S520 S210 S60 P6000 P80 P60 L18 L16

Composite image

Original images

Panorama Maker software available with Nikon's complementary Software Suite makes it easy to join a series of pictures to produce a single seamless panorama.

Note: Images shown above are for representation purposes only.

Power sources:	Rechargeable Li-ion Battery EN-EL12 (supplied), AC Adapter EH-62F (optional)	Rechargeable Li-ion Battery EN-EL12 (supplied), AC Adapter EH-63 (supplied)	Rechargeable Li-ion Battery EN-EL12 (supplied), AC Adapter EH-63 (optional)	Rechargeable Li-ion Battery EN-EL10 (supplied), AC Adapter EH-62D (optional)	Rechargeable Li-ion Battery EN-EL11 (supplied), AC Adapter EH-62E (optional)	Rechargeable Li-ion Battery EN-EL10 (supplied), AC Adapter EH-62D (optional)	Rechargeable Li-ion Battery EN-EL10 (supplied), AC Adapter EH-62D (optional)	Rechargeable Li-ion Battery EN-EL10 (supplied), AC Adapter EH-62D (optional)	Rechargeable Li-ion Battery EN-EL10 (supplied), AC Adapter EH-63 (optional)	Rechargeable Li-ion Battery EN-EL5 (supplied), AC Adapter EH-66 (supplied)	Rechargeable Li-ion Battery EN-EL5 (supplied), AC Adapter EH-62A (optional)	Rechargeable Li-ion Battery EN-EL5 (supplied), AC Adapter EH-62A (optional)	Two AA alkaline (supplied), lithium or Oxyride™ batteries, two EN-MH2 rechargeable Ni-MH batteries (optional), AC Adapter EH-65A (optional)	Two AA alkaline (supplied), lithium or Oxyride™ batteries, two EN-MH2 rechargeable Ni-MH batteries (optional), AC Adapter EH-65A (optional)
Battery life*1:	Approx. 250 shots with EN-EL12 battery	Approx. 290 shots with EN-EL12 battery	Approx. 290 shots with EN-EL12 battery	Approx. 190 shots with EN-EL10 battery	Approx. 160 shots with EN-EL11 battery	Approx. 200 shots with EN-EL11 battery	Approx. 180 shots with EN-EL10 battery	Approx. 220 shots with EN-EL10 battery	Approx. 140 shots with EN-EL10 battery	Approx. 260 shots with EN-EL5 battery	Approx. 250 shots with EN-EL5 battery	Approx. 190 shots with alkaline, 230 shots with Oxyride™, 650 shots with lithium or 470 shots with EN-MH2	Approx. 180 shots with alkaline, 650 shots with lithium or 390 shots with EN-MH2	Approx. 180 shots with alkaline, 650 shots with lithium or 400 shots with EN-MH2
Dimensions (WxHxD):	Approx. 92.5 x 57.5 x 24.0 mm (3.6 x 2.3 x 1.0 in.) excluding projections	Approx. 96.5 x 57 x 22.5 mm (3.8 x 2.2 x 0.9 in.) excluding projections	Approx. 94 x 57 x 22.5 mm (3.7 x 2.2 x 0.9 in.) excluding projections	Approx. 88.5 x 53 x 22.5 mm (3.5 x 2.1 x 0.9 in.) excluding projections	Approx. 93 x 54.5 x 23.5 mm (3.7 x 2.1 x 0.9 in.) excluding projections	Approx. 90 x 53.5 x 22 mm (3.6 x 2.1 x 0.9 in.) excluding projections	Approx. 94 x 53 x 22.5 mm (3.7 x 2.1 x 0.9 in.) excluding projections	Approx. 90 x 55.5 x 18 mm (3.6 x 2.2 x 0.7 in.) excluding projections	Approx. 97.5 x 60 x 22 mm (3.8 x 2.4 x 0.9 in.) excluding projections	Approx. 107 x 65.5 x 42 mm (4.2 x 2.6 x 1.7 in.) excluding projections	Approx. 110 x 79 x 78 mm (4.3 x 3.1 x 3.1 in.) excluding projections	Approx. 95.5 x 63.5 x 36 mm (3.8 x 2.5 x 1.4 in.) excluding projections	Approx. 95 x 61 x 29.5 mm (3.7 x 2.4 x 1.2 in.) excluding projections	Approx. 95 x 61 x 29.5 mm (3.7 x 2.4 x 1.2 in.) excluding projections
Weight:	Approx. 155 g (5.5 oz.) without battery and SD memory card	Approx. 130 g (4.6 oz.) without battery and SD memory card	Approx. 125 g (4.4 oz.) without battery and SD memory card	Approx. 130 g (4.6 oz.) without battery and SD memory card	Approx. 130 g (4.6 oz.) without battery and SD memory card	Approx. 120 g (4.2 oz.) without battery and SD memory card	Approx. 115 g (4.1 oz.) without battery and SD memory card	Approx. 100 g (3.5 oz.) without battery and SD memory card	Approx. 145 g (5.1 oz.) without battery and SD memory card	Approx. 240 g (8.5 oz.) without battery and SD memory card	Approx. 365 g (12.9 oz.) without battery and SD memory card	Approx. 160 g (5.6 oz.) without battery and SD memory card	Approx. 125 g (4.4 oz.) without battery and SD memory card	Approx. 125 g (4.4 oz.) without battery and SD memory card

\*1 Based on CIPA industry standard for measuring life of camera batteries. Measured at 23°C (73°F); zoom adjusted with each shot, built-in flash fired with every other shot, image mode set to Normal.  
\*2 Not compatible with Multi Media Cards (MMC).  
\*3 Setting is available only for image sizes of 3M (2048 x 1536) or smaller.  
\*4 Setting is available only for image sizes of 5M (2592 x 1944) or smaller.

Note: Camera models and color availability may vary according to region.

# Nikon Digital SLR – Further quality, faster response, exciting new potential

## D3

Discover new territory

## D300

Empower creativity

## D200

High-precision, high-performance and unrivalled handling

## D700

Exceptional performance. Agile design.

## D80

Outstanding performance for every aspiring photographer

## D60

Stunning photography is just a step away

## D40x

Designed to take great, high-resolution pictures for everyone

## D40

Outstanding picture quality with a design that's easy for everyone
