Empowering Key

Acer eView Management

Acer eView Management helps users adjust their projector settings to suit any environment and any type of content in just a few moments.

Six factory or user-defined presets instantly re-configure color, brightness and contrast to deliver best-quality images every time.

• **Bright:**
  Delivers highest brightness and superior contrast ratio for the vivid display of presentations even in brightly-lit environments.

• **PC**
  Performs color correction and brightness optimization to allow viewing in well-lit conditions. Allows text viewing for longer periods without causing eye-strain.

• **Video**
  Improves the quality of high-motion/video content.

• **Theater**
  Performs optimal color and image optimization suitable for viewing in a dark setting.

• **sRGB**
  Displays standard sRGB color precisely.

• **User**
  Allows users to customize settings to suit their preferences.

Acer eTimer Management

Acer eTimer Management provides an onscreen visual cue to help users keep their presentations on schedule.

Quick to set up and simple to use, Acer eTimer Management is the key to achieving perfect delivery.

- **Start/Stop**
  Users are able to start/stop the timer via the projector's remote control or the keypad.
- **Period**
 Users can set the timeout period from 0 to 60 minutes.
- **Alarm**
  An alarm can be set to sound once the timer is up.
- **Display**
  Users can select from 3 display formats: Off, Countdown and Countup.
- **Location**
  The timer can be customized to display in each of the 4 screen corners.

Acer eOpening Management

Acer eOpening Management allows users to create a customized startup screen for their Acer projector.

- Business users can set a corporate logo to create a professional brand image or add owner information to protect the projector from theft.
- Home user can have fun displaying their favorite photographs.

Acer eProjection Management

Acer eProjection Management helps users easily connect to, and control Acer projectors with an integrated Wireless Presentation Gateway.

By allowing the transmission of high-quality audio and video signals, without wires, the WPG gives users flexibility and convenience allowing them to use an Acer projector in almost any room or setting.

eProjection Management includes the following ease-of use highlights:

For first time installation…
- The utility can be downloaded directly from the projector using a wireless network connection.
- Allows the software to be set up on any PC in just a few minutes, without discs or cables.

CD-less installation and instant connect

Security
- Acer eProjection Management supports PIN code security protecting the Acer projector from unauthorized access and use.
- Wireless communications between the Acer projector and PC are protected using unique image-based encryption to prevent eavesdropping or modification of the video signal.
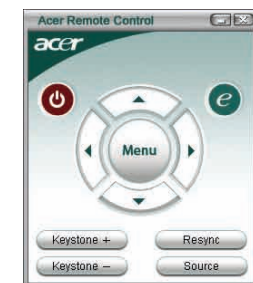

Simple GUI for one-click projection

The easy-to-use GUI enables one-click usability in finding and connecting to the wireless projector, changing display settings, and controlling the projector.

Onscreen remote
An onscreen remote utility gives any user the ability to control functions of the projector without the owner worrying about loss of or damage to the projector's remote handset or worn-out batteries.
