Nikon

At the heart of the image

- 7.1 megapixels
- 3x zoom
- 2.5-inch LCD
- VR image stabilization
- ISO 1000 capability

COOLPIX S200

Slim, smart and raring to go.

Elegant aluminum finish body, 18.5mm slim

Packing sophisticated style, advanced functions and high performance into its ultra-slim design, the COOLPIX S200 fits comfortably in the hand and simplifies operation for greater fun with photography.

VR image stabilization

Compensating for the effects of camera shake to realize sharper results, Electronic VR (Vibration Reduction) frees you to enjoy capturing special moments without worrying about slight hand movements, particularly in lower lighting conditions or when zooming in for close-ups.

ISO 1000 capability

Light sensitivity range up to ISO 1000 allows the use of faster shutter speeds to avoid blurred results when shooting moving subjects or in locations with insufficient lighting. ISO sensitivity is automatically optimized in High-Sensitivity mode.

Other features
• Large 2.5-inch 153,000-dot LCD monitor with anti-reflection coating
• Face-priority AF – finds and focuses on people's faces for consistently crisp results
• In-Camera Red-Eye Fix – in-camera compensation for more natural flash portraits
• D-Lighting – adds detail and optimizes exposure to rescue underexposed images
