In-camera creative slideshow entertainment

So much more than a simple slideshow function, Pictmotion lets you share your photos in a more imaginative and entertaining way. Simply select a range of images, pick a style and choose your soundtrack from 5 pre-installed music files, or load new ones* to go with your images.

Your Pictmotion slideshow will be produced automatically, with pace and transitions determined by music and style ready for viewing anywhere on the large LCD.

* Via PictureProject for Windows only.

Stunning
style,
sleek control

The COOLPIX S5 and S6 integrate attractive form with optimized operation. Their stylish wave-surface designs give them great visual appeal, while making them more comfortable in the hand. Conveniently located buttons merge with exterior elegance to place powerful functions at your fingertips. Their superior design even extends to the selection of functions on-screen, bringing a stronger sense of style to the entire operational experience.

Endless enjoyment...

Wi Fi CERTIFIED b g

Wireless to computer

Wireless to printer

Wireless Printer Adapter PD-10

Wireless freedom*

The COOLPIX S6 gives you total wireless freedom. Snap away and transfer pictures straight to your computer as soon as they're taken. You can even send images directly to a PictBridge-compatible printer without the need for connecting cables.

* Wireless support (IEEE 802.11b/g). Wireless printing requires optional Wireless Printer Adapter PD-10.

170°

Wider enjoyment

Equipped with a large LCD, both the COOLPIX S5 and S6 are great for viewing images anywhere, while the impressive wide viewing angle makes it easier for everyone to see and enjoy images.

One-touch portrait button

Sharper satisfaction

The new One-touch portrait button provides fast and easy access to unique Nikon innovations. Activate Face-priority AF and In-Camera Red-Eye Fix for optimized image capture, and choose D-Lighting to improve the results after shooting. Swift, simple and convenient, it's a single solution for more satisfying results.

Nikon image innovations
Features for further quality

Without D-Lighting
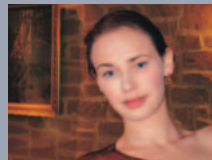

With D-Lighting

D-Lighting

Improve underexposed images or shots taken with too much backlight. Nikon's unique D-Lighting function automatically creates a copy with added light and detail wherever necessary and well-exposed areas left precisely as they are.

Face-priority AF*

Take satisfyingly sharp portraits, no matter where your subject is in the shot. Face-priority AF automatically finds, then focuses on people's faces, enabling you to achieve crisp, clear results time after time.

* Face recognition capability may be limited in some shooting conditions.

In-Camera Red-Eye Fix

Avoid the annoying red-eye effect sometimes caused by flash. In-Camera Red-Eye Fix automatically detects red eyes in the picture, then cleverly compensates for them in-camera.
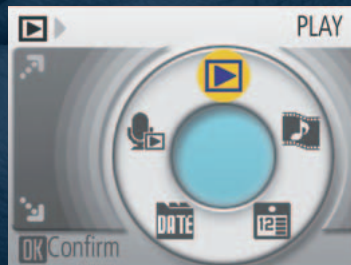

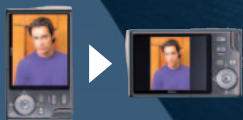

Note: Images shown above are for representation purposes only.

Rotary multi selector

All-round versatility

The new Rotary multi selector enables smoother camera use. Swift circular scrolling action allows speedy image browsing at up to 10 images per second, and a range of buttons ensures intuitive operation. What's more, an on-screen icon with a cursor that tracks Rotary multi selector scrolling makes it easy to select various features, including the handy Calendar function that automatically sorts images according to date.

Auto Image Rotation

Auto Image Rotation detects pictures that have been taken with the camera held vertically, automatically rotating them to suit in-camera LCD playback.

Advantages that take the fun further

COOL-STATION MV-14/MV-15

The supplied COOL-STATION MV-14/15 conveniently recharge batteries without you having to remove them from the camera. They also feature a USB port that allows direct computer connection and they can even be hooked up to a TV.

Dock Insert PV-10/PV-11

The Dock Insert PV-10/PV-11 (supplied) let you connect the COOLPIX S5 and S6 direct to an ImageLink-compatible printer, giving you the power to print straight from the camera without the need for a computer.

Field Jacket FJ-CP1

Push your photography into exciting new territory. Keeping your COOLPIX safe and dry, the Field Jacket FJ-CP1 water-resistant case* lets you shoot at underwater depths of up to 3 meters.
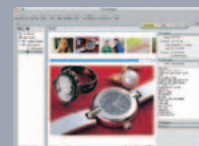

* Field Jacket FJ-CP1 water-resistant case is available for the COOLPIX S5 only.

PictureProject

Now featuring special Wi-Fi functions*, Nikon's exclusive complimentary software takes your photo enjoyment further. Offering user-friendly operation, it enables easy picture editing, simplifies image organization and sharing, and there's also a range of available plug-ins that lets you extend capabilities as you like.

* Wireless functionality available for the COOLPIX S6 only.
